

Be connected

“

*We take rail freight to the next level,
making connections between
economic hubs in Europe better and faster.*

B Logistics, Be Connected

B Logistics is determined to change the standards of conventional rail freight and thus accelerate the 'modal shift'.

- With fast and reliable connections between economic hubs in Europe;
- With technological innovations that boost performance and service;
- And with a dynamic and skilled organisation.

B Logistics makes the difference and offers
real answers to rail challenges.

From a state owned, loss making freight company into a sound, private and competitive logistics partner.

Through cost control and structural operational optimisations, B Logistics has accomplished an impressive turnaround and increased its efficiency, quality and safety tremendously.

100% STATE

Intermodal Trains

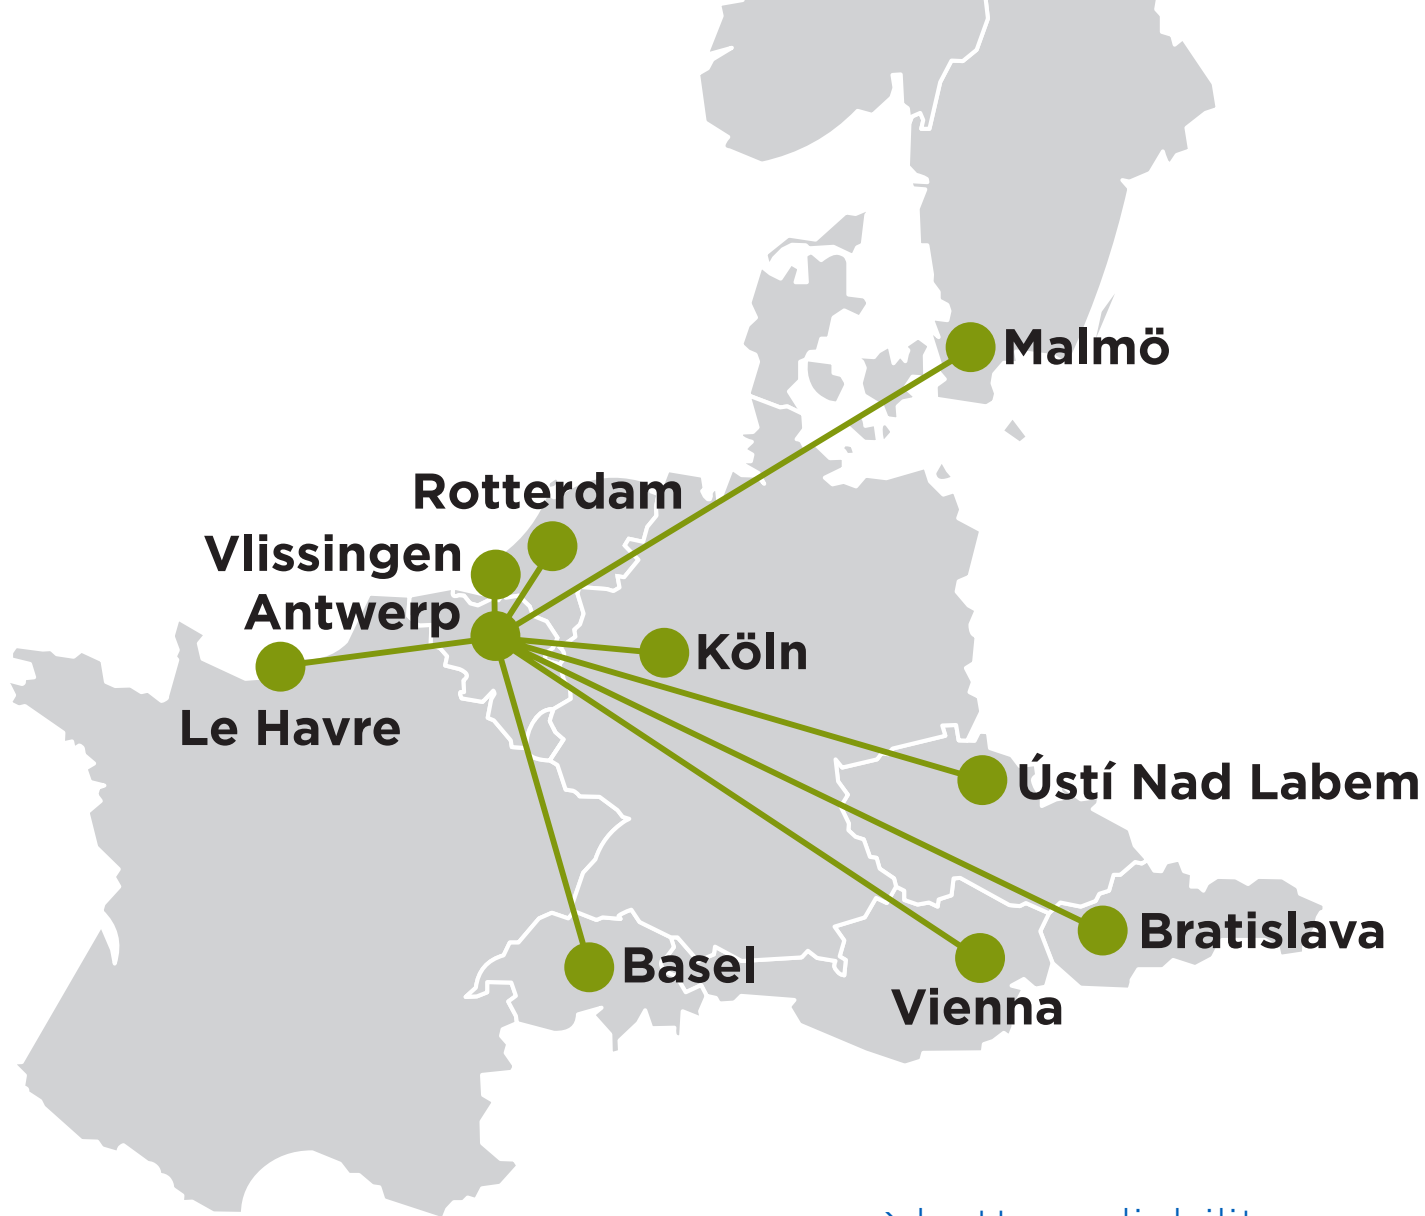

**If you are active in Europe,
we can help you.**

Headquartered in Belgium with a strategic position around the harbours of Antwerp, Gent, Zeebrugge, Rotterdam and Le Havre, B Logistics operates trains in open access in Germany, the Netherlands, Luxembourg, Switzerland, France, Austria and Slovakia.

The Green Xpress Network (GXN), powered by B Logistics, Xpedys and partners, is the fastest and most direct way to transport your goods by rail between Belgium and other important European economic hubs. The GXN speeds up transit times and reaches new standards of reliability - quickly, safely, dependably and ecologically. GXN offers multiple weekly departures according to fixed timetables.

→ better reliability

→ faster connections

→ smarter information

**If you are concerned
about ease of use,
B Logistics will help you.**

B Logistics brings rail freight into the 21st century with new technology. Our innovations contribute to the increased reliability and efficiency of (y)our services.

Safe

Safety first. We implement technologies used in other industries (aviation, automotive, etc.) to create a safer working environment for our staff and safer transport of your goods. Safety innovations include sleep sensors, reversing cameras and e-learning.

Simple

Rail freight can be made a lot easier and more accessible. B Logistics will offer real time quotes and reservations via the internet.

Connected

Your wagons and goods are very precious. Stay up to date with their whereabouts and condition via your smartphone. Our data will fuel your supply chain systems.

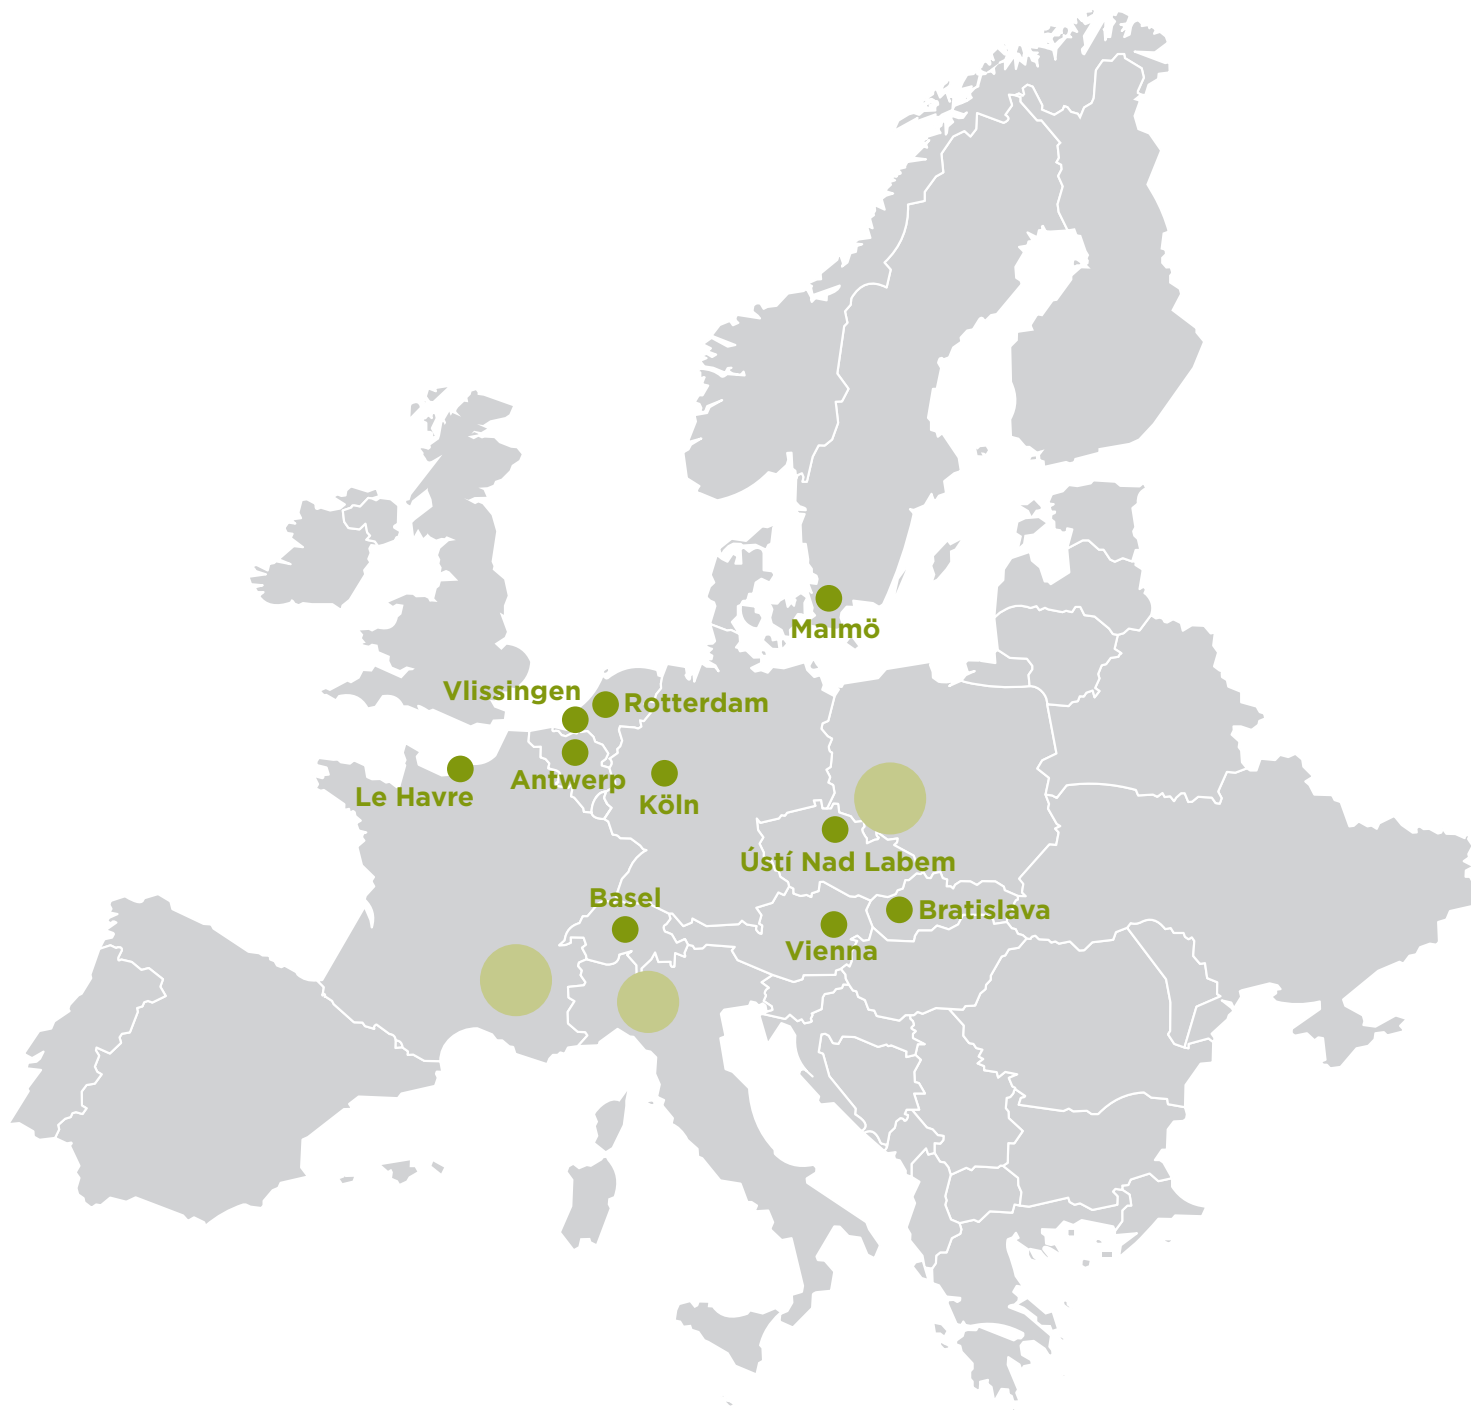

**If long term trust
and competitiveness
are important to you,
we can help you.**

B Logistics strives for trusted long term partnerships with its Belgian and international clients. We improve and develop rail services, placing you and your needs at the centre of our attention. Our dedicated customer teams understand your business and adequately respond to your specific logistic needs, providing you with relevant, accurate and timely information.

By developing the international connections you need, in combination with better, faster and smarter rail offerings and in closer collaboration with you, we aim for sustainable growth. Leading rail freight into the 21st century with our new technology, we will be able to accelerate the 'modal shift'.

Do you want to know more about our services? We are eager to respond to your needs.
